Request Money

Your child can request money through a one-time money request.

- Amplify will send you push notifications to alert you that your child has requested money.
- Money is transferred in real-time.

**Child View**

**Click on New Request – Money Request**

The child enters information to make the request.

**Once submitted, the request is sent in real time via push notification.**
Request Money

Parent View

The parent will click on the Request tab to review.

You can then decide to approve or deny request.

Funds will transfer in real time!
Loans

The loan request will teach the child important financial lessons that will help develop positive payment habits, better understand financial responsibility and gain credit score awareness.

- The child can request a loan with custom terms. The parent will have full control of these terms.
- The child will earn trophies when payments are made on time.

**Child View**

The child will enter in the requested amount and toggle on the “Request a loan”. Then, the child will customize the payment frequency, loan terms, etc.

Once the parent has accepted the loan and terms, the child will receive the funds.
Loans

Parent View

The parent will receive a push notification notifying them that the child has requested a loan. The parent will see that they have a pending request under the child’s account.

You can then type a response and either deny or approve the loan request. If accepted, you will get the following prompts.

Click on the request and it will take you to the loan request for review.
Your child can get rewarded for good grades!

Click on Requests – Report Card Request.

The child will then take a photo of their report card. They will enter the amount of As, Bs, and Cs.
Report Card Request

Parent View

Click on the Request tab to see the request under review.

Edit the amount per grade. Approve or deny the request.

Funds will transfer in real time!
Tasks

You can assign tasks to your child for things such as chores.

- The child can submit picture proof of the completed task
- Money is transferred in real time
- The task can be tracked to determine its status
- Can be recurring or one time

Child View

Under the Task tab, children can see what tasks they have assigned to them and the details/status of that task.

After the task is complete, they can upload photo evidence of the completed chore.
Tasks

Parent View

The parent will receive a push notification that the task was completed.

Click on the Task tab to see the task under review.

If there is photo evidence attached, that will appear under the review.

If approved, the funds will transfer in real time!
Budget

The Budget tool can be created and edited by you and your child. The budget tracks deposits, expenses, short-term savings, long term savings, charitable giving, and spending.

- Earn trophies for creating a budget

Parent and Child View

Set the amounts for each of the 6 budget areas. Amplify will then calculate the amount left over for spending.

Once the budget is created, you will be able to view a chart for the new monthly budget.
Allowance

Parents can set an allowance for the child. The money is transferred from the parents account to the child’s account on the due date.

**Parent View**

Set the amount and frequency of the allowance for easy transfer. Allowance will transfer automatically once set up.

**Child View**

Allowance will show front and center for the child to let them know how much they will be receiving and when.
